SEARCH 4 Research

1. **Title**. Compelling . Single sentence stating your research.
 2. **Abstract**. One single Paragraph of about 200 Words with a sober (not overstating) Representation of your work. You are not allowed to state anything in the Abstract which has not been proven in the paper .
 - Graphical Abstract is optional.
- Parts of the abstract: (1) Short introduction (2) Methods (3) Results obtained.

Hint: You write the abstract at the end of the writing process.

Keep your abstract statements sober.

3. **Key words:** A list of 5 to 7 words that are used by search engines to find your work.

4. **Introduction:** the introduction should outline the research in its context.

Hint: when performing economic research, your context is usually socio-economical.

The introduction should highlight the meaning and need of your research. It should describe the STATE of THE ART (what have others done?) and subsequently should outline why your research is necessary.

Hint: after every statement, add a reference.

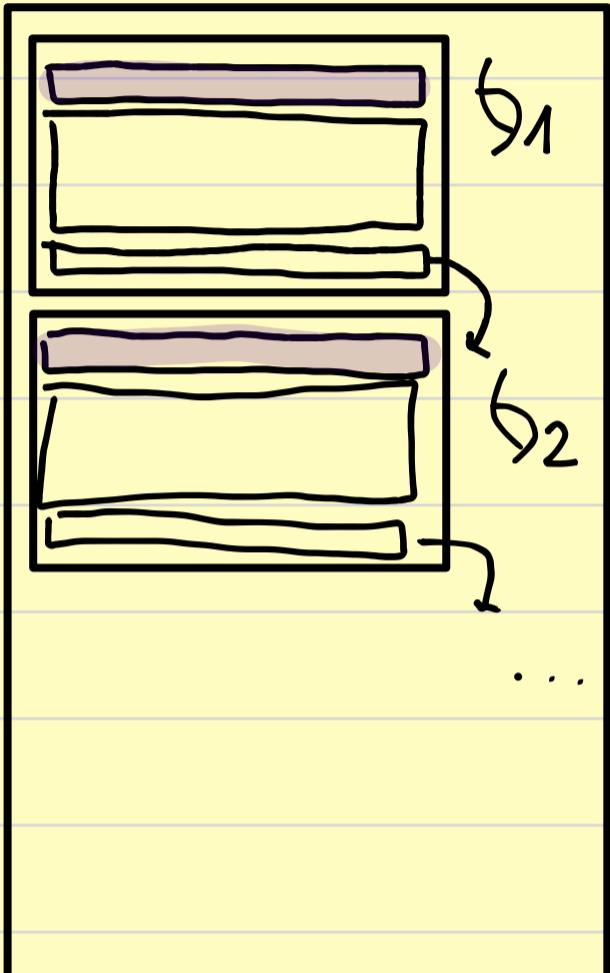

Hint: Structure of paragraphs:

MAIN IDEA OF THE PARAGRAPH

EXPLANATION & CONTEXT

LINKS TO NEXT PARAGRAPH

6

Hint: do not use references older than 5 years unless is unavoidable.

Section: i.e. Introduction

The last paragraph of the introduction is a little description of the structure of the paper hereinafter.

5. Materials & Methods: In this section you should describe in as much detail as possible your methodology so that research can be 1. understood 2. replicated.

6. Results. This part of the research states the obtained results and highlights the main findings for the reader. You should describe the way in which the results were obtained (i.e. POPULATION, ...) in order to give as much CONTEXT as possible.

7. Discussion. This is where the researcher explains the consequences of his/her research in a broader context. This part should be linked to the research gap:

8. Conclusion & Future Work. (Limitations)

This part is not mandatory (can be stated in the discussion), but for cleanliness purposes you should separate it.

9. References. This is a standardized part of the paper and every journal/book editor/university etc. has their

own Standard [i.e. Harvard, APA, ...] (\LaTeX , Enders, ...)

Deadline Dec. 1st. 23⁵⁹ CET per Email. POSTER

Präsentation on Dec 3rd. Individual. 5 Minutes H5P. Video.
